

GreenTech Energy Services has installed lighting retrofit solutions in over 4,000 commercial buildings from coast to coast. Here are just a few of our customers in the education field, and what they have to say about GreenTech.

Education Accounts

Los Angeles Unified School District

"GreenTech's Energy Savings Program provided the District with verifiable energy savings, rebates from the utility company, reduced operational costs, and an improvement in overall operations. It was well worth the investment."

Keith Davis, LAUSD Energy Manager

Richland School District

"GreenTech Energy Services lighting retrofit project definitely brightened up our hallways and classrooms, just as they said they would-all this and saving money."

Don Irwin-Business Manager

Neshaminy School District

"Our schools have a noticeably brighter appearance that has received many positive comments from school personnel and the general public alike. We appreciated GreenTech's close personal involvement in tending to all the details of a project of this size."

Paul Minnotti-Director of Facilities

Council Rock School District

"GreenTech completed a comprehensive energy reduction program including a lighting retrofit and installation of a building management system. Their project team did a great job of meeting all dead lines and managing the installations with minimal interruption to schools activities."

Tom Ames-Director of Facilities
