

GreenTech Energy Services has installed lighting retrofit solutions in over 4,000 commercial buildings from coast to coast. Here are just a few of our national account clients and what they have to say about GreenTech.

National Accounts

Staples

"GreenTech Energy has been handling the design, engineering and installation of energy efficient lighting for our distribution centers. Their expertise was apparent in all phases of the design and installation. Our DC center GM'S have been thrilled with the increase of light levels and the overall aesthetic improvement."
Bob Valair-Director of Facilities

Charming Shoppes

"We have been using Greentech Energy Services to retrofit our T12 stores nationally. Their turn-key approach has been key to getting the work done with minimal interruption to the day to day sales activity. I have received many compliments from our store managers on the improvement of the lighting environment."
Dan McKay-Director of Store Facilities

Burlington Coat Factory

"GreenTech Energy Services has been a great resource for us as we move forward with state of the art lighting changes."
Tony Pashalian-Energy Manager

JP Morgan Chase

GreenTech Energy Services completed a lighting retrofit and replacement project for JP Morgan Chase in all of their branches in the State of New Jersey. Greentech facilitated all the required paperwork for the New Jersey Smart Start rebate program which provided a rebate of \$57,960. The project generated \$53k in energy savings and had a 3.6 year payback.
